

AMPLIROLL® AL28

FASSI GROUP

Key points

- Rear hydraulic body locking**
- Self-automatic mechanical lock to secure main arm and tilting frame in tipping mode**
- Pneumatic control in cab**
- Strong and reliable, designed for harsh work**
- Free tilting frame that acts as a power multiplier**
- Solid steel hook welded**
- Lifting capacity of 28T from ground level**

Marrel Telescopic range

Truck GVW from 26 to 32T			A56	A58
	Container length : min	LG mm	4700	4900
	max		6900	7100
	Container with fixed underride		6100	6300
	Own weight	Kg	3130	3230

Indicated figures in this document are for information only and can be changed without any prior notice.

Standard configuration

Hooklift : Ampliroll with telescopic jib

- Lifting capacity 28 tons
- Hook height: 1425 mm
- Mini and maxi body length are determined by the pre-study drawing
- Lifting steel hook welded on the jib end
- Rear rollers with standard flanges, suited for bodies with longitudinal runners spaced at 1.060 mm.
- Hydraulic container locking system (external locking)
- Pneumatic On / Off controls in cab
- Directional valve with pneumatic controls
- Safety while tipping : telescopic jib cannot be operated
- Main cylinders with check valve
- Advanced free tilting frame acting as lifting power multiplier
- Equipment is painted in dark primer

Hydraulics

Hydraulic cylinders manufactured by Marrel
 Check valve for main cylinder
 Direction valve with pneumatic controls
 Safety device to prevent miss-use of the equipment

Mechanical structure

Steel with high tensile strength
 Rear articulations strengthened for the high constraints
 Welding by robot welders and machining of the articulations
Anti-corrosion treatment : grinding of all mechanical welding components

Safety and container locking

Rear hydraulic body locking (outside and inside)
 In operation outside warning buzzer

Options and Accessories

- Axle blocking device and rear stabilizer roller
- Hook with mechanical or pneumatic safety latch
- Rear stabilizer roller

- Under run bumper telescopic PANTO - tiltable or fixed
- Set of attachment brackets
- Fire extinguisher box
- Tool box
